

CIVIL SOCIETY AND PARLIAMENTARY ELECTIONS IN HUNGARY 2022

-

EVALUATION AND EUROPEAN OUTLOOK

EMMM FINAL CONFERENCE
30-31 MAY, 2022 BUDAPEST

Almost two months after the decisive general elections at the beginning of April, it is time to take stock of what happened, to look at the European context and discuss next steps. This conference will be the closing event of a 2-year long project managed by Ökotárs in partnership with Hungarian Civil Liberties Union, Civil College and Power of Humanity Foundations aimed at building the capacities of Hungarian civil society organisations (CSOs) engaged in activities and campaigns around elections, both locally and nationally. Within this framework we conducted surveys, held trainings and workshops, developed online and visual tools.

The two-day conference is organized with a double goal in mind: (1) to evaluate Hungarian CSOs activities, successes and failures around the elections and the project itself, and (2) to provide an international outlook, discuss experience around Europe and potential cooperation among CSOs as well as next steps in the context after the elections.

Representatives of CSOs, community and citizen groups active around elections or just interested in the subject from Hungary and elsewhere, as well as journalists and experts are welcome to participate.

The project and the event is supported by the European Union's Rights, Equality and Citizen programme. The organisers cover the costs accommodation and travel to international participants and those coming from greater distances.

The event is free to attend, but registration is needed – please [register here!](#) Deadline: **2 May 2022.**
